PREMIUM HEAVY DUTY WORKBENCH

A range of premium workbenches with a massive 600kg UDL capacity (1400kg with pedestal), ideal for heavy duty applications.

The premium workbench system has been designed to perform in all production and mechanical workshop environments. They meet the demands of a modern workplace through a solid engineered design with modular and flexible configurations.

The heavy steel frames support a 35mm multi-ply worktop that will stand the rigours of the harshest use. The units can be fitted with a variety of suspended drawer cabinets, or a pedestal, that can be fitted along the length of the bench for greater flexibility.

- **Simple to build and configure**
- **Strong and sturdy steel frames**
- **35mm Multi–ply worktops**
- **Wide range of drawer cabinets**
- **Drawers can hold 70kgs each**
- **Drawers can be sub-divided (17mm)**
