

RIVET DIVIDER SYSTEM

Our Rivet Divider System provides an effective way to store loose or awkward items. The bays provide multiple locations for separating individual products.

The system uses our Heavy Rivet Racking solution with bespoke shelves, dividers and cladding. This creates a cost effective divider system with strength and easy installation. As well as standard bays we can offer bespoke designs.

Will suit any height or depth

Fix divider to any position

Bay Colour Options

For Blue Uprights with Orange Shelves add /BO to the end of your chosen price code.

For Blue Uprights with Grey Shelves add /BG to the end of your chosen price code.

All bays are supplied with four levels, uprights, plastic feet, perimeter beams, deck supports, chipboard decking, dividers, brackets and fixings. Dividers are supplied with brackets. Side cladding is constructed from 16mm Chipboard and is supplied with all required fixings and washers. (Some drilling and fixing required). Available in blue/grey and blue/orange.

Remember, if your shelving height to depth ratio is greater than 4:1, the bay should be fixed to the floor or to the wall.
