

## **Expo 4**

Boltless Modular Steel Shelving

The Expo 4 range offers three systems to suit different storage needs. **Expo 4G** provides up to 200kg per shelf in a galvanised finish, ideal for heavy-duty use. **Expo 4** offers the same strength with grey shelves and blue uprights, available in multiple sizes for offices and warehouses. **Expo 4D** features white slotted shelves with dividers for compartmentalised storage.

## **Features and Benefits**

- Load capacities of up to 200kg per shelf across all ranges.
- 25mm shelf adjustment for maximum flexibility and easy configuration.
- Expo 4G: all-galvanised finish for durability in tough environments.
- Expo 4: painted finish (RAL7038) with blue uprights for versatile use.
- Expo 4D: white slotted shelves (RAL9010) with divider options for compartments.
- Shelf depths available in 300, 400, 500, and 600mm.
- Frame heights range from 2000–3000mm.
- Suitable for offices, storerooms, multi-tier, and high-bay warehouse projects.

## Product Options

The **Expo 4** range is supplied in a wide choice of heights, widths, and depths, ensuring a solution for every environment. Bays can be configured with **solid or mesh cladding, dividers, or additional carriers** depending on your storage needs. Whether you need simple shelving for smaller spaces, flexible bays for mixed goods, or a tailored multi-tier system for large warehouses, **Expo can be customised to create the perfect storage setup.**
